

Team Name and reason for the name: Mind Benders- it's a cool name

Team Logo

Team Photo:

Team members names: Claire, Ryland, Sam and Jamie

Describe their team, including:

- **what they are good at:** Thinking of ideas
- **what their best achievements have been in the Vector EPro8 Challenge :** Getting 1st place in the heats and 3rd place in semi finals
- **what have they made:** A system to get uncle Albert out of bed and a sound system
- **what they are looking forward to in the finals:** Finding out our new challenges and seeing how we do
- **what they think of engineering:** We think its fun and creative
- **anything unique about their team:** We are super smart. In our team we have four team members who are Claire, Ryland, Samuel and Jamie, we have an assortment of young people, but still get in the top

three with other year 7&8 teams. Our team is good at thinking of ideas and improvising on activities together. Our greatest achievement was probably coming first in the quarter finals, in the first heat we had the objective of getting uncle albert out of bed with an assortment of tech and engineering and in the semi-finals the objective was to produce a working sound system with additional functions. Our team thinks it's fun to go and work with different materials and understand our way around problems.
