

Hi! We are Abby, Chelsea, Edith and Jaime from Saint Kentigern Girls School! Together, our team is SKG Nano Girl Bosses. We came up with this name because we aspire to be like Michelle Dickinson, who is the real Nano Girl. We were also inspired by the company Girl Boss, so we combined the two names to make our awesome name! Teamwork and collaborating together is our strongest point. We all love engineering and don't care if our hands get dirty. Lastly, we get together every Wednesday and Friday lunchtime and Friday morning. We love EPro8!!! Some special facts about our team are that...

- We are all girls
- We are the first Saint Kentigern Girls' team ever!
- We are all Year 7s
- For two of us, it's our first year doing Vector EPro8 Challenge
- We placed 2<sup>nd</sup> in the heats
- We placed 1<sup>st</sup> in the semi-finals!
- We completed all of the "Crowd Size" challenges in the semis

A bit about ourselves...

- Abby is the strongest at electronics in our team!
- Chelsea is our mathematician!
- Edith is our therapy, pilates and mindfulness queen, who keeps us in order!
- Jaime is good at building stuff with the poles, and even better at destroying it!

We are all super excited for the finals and we hope to see you all there. Good luck everyone!
